

Call for Write-up  
for  
***BUET Physics Bulletin***  
*A yearly e-magazine published by the Department of Physics, BUET*

You will be very glad to know that the Department of Physics, BUET is going to publish an e-magazine titled as '*BUET Physics Bulletin*' in January 2022 aiming at fostering and circulating news and views about State-of-Art of Physics as well as original research findings in the fields of fundamental, applied, and interdisciplinary Physics. For the issue the Editorial board is asking for informative/valuable/interesting write-up and hereby requesting to send the write up to the e-mail address "buetphysicsbulletin@gmail.com" on or before 31 August, 2021.

**Objectives of the e-magazine:**

The key objectives of the magazine are-

1. To represent the Department to national and international Physics communities.
2. To publish information of scientific achievements, upcoming scientific events and offered degree programs by the Department of Physics.
3. To circulate information about scientific events like seminars, workshops, conferences, scholarships, internships, jobs etc. related to Physics.
4. To present valuable achievements of alumni of the Department of Physics.
5. To publish innovations or novel discoveries in Physics all around the world.

***Before sending the write-up please take into account of the following important rules and regulations:***

**Ethics & Disclosures**

- *BUET Physics Bulletin* is a non-profitable and irrational publication, which may be a frontier to promote the Physics in its relevant areas nationally and globally.
- *BUET Physics Bulletin* will not be legally responsible for claims about any write-up/articles or copyright issues. Plagiarism detection software may be used to evaluate and screen any write-up or submission.

**Medium of Publications and Size**

- The medium of publications is English.
- The word limit per article/write-up should be within 500 words.

**Permission/Affiliation of Authors**

To include any figure, table, and text passage that have already been published elsewhere, authors should take the permission from the copyright owner(s) for both the print and online format. Any substantial received without such evidence shall be assumed as author's copyright.

**Scope of the Bulletin**

Probable contents of the *BUET Physics Bulletin* shall include the followings:

- Physics related information/article
- Recent research achievements
- Academic achievements
- Information of ongoing research projects
- Scholarship and job information
- Contemporary scientific news
- Alumni news
